

# The Floyd A. Glende Award is presented to The Fortuna Concert Series

On September 14, 2013 the Fortuna Concert Series was honored by the presentation of the Floyd A. Glende Award by the Board of Directors of Chamber Players of the Redwoods. The award was given in appreciation of the work the Fortuna Concert Series does to foster chamber music and other musical genres in the North Coast region of California.

The award is given by the Chamber Players of the Redwoods (CPR) to persons or organizations the CPR feels functions in a way consistent with and representative of the philosophy and practices of Professor Floyd A. Glende, Professor of Music at Humboldt State University from 1953 through 1957, whose visionary leadership inspired thousands of chamber musicians.

The Fortuna Concert Series is very pleased and appreciative to be so honored with this award presentation by the Chamber Players of the Redwoods.
